## Summary

I am a Backend developer who is passionate about coding and always looking for new things to learn. I have worked on React.js projects like app development, website creation, e-commerce products as well as other freelance projects. With my expertise in front end frameworks such as Node.js, ReactJS I would love to work on more cool ones too. Currently I work on a Smart Building System with a 1000+ daily active user.

## Experience
